TailorPass — Garment data status

Read from `for-agent/plan.md` (§3 "Garment data sources", §7 open items) and `model/Measurements.kt` · 19 Oct 2026

> **How "fully" is judged.** A category is **fully acquired** only if every data piece it needs has a named source: measurement list, Bangla terms, plausible ranges, size chart and size rule. **Partial** = some pieces sourced, others rough, agent-chosen or missing. **Not acquired** = nothing sourced.
> **Strict result:** no tailored garment is 100% complete. Only the **size charts** for T-shirt and women's are fully sourced (both with brand-chart caveats). Everything else is partial.

1. Fully acquired

1.1 T-shirt / গেঞ্জি (size suggestion S–XXL)

Acquired data	Source
Shoulder and length per size (S–XXL)	Urturms T-shirt chart (South Asian brand)
Body chest per size (M 38–40, L 40–42, XL 42–44) = brand chest less 0–2" ease	Same Urturms chart; ease chosen to reproduce the design 9.4
Cross-check (size L ≈ 26.8" long, 17.3" shoulder)	Bangladeshi study (Zenodo)
Chest/length only (not used for shoulder)	Ecstasy BD, Easy Fashion BD
Size rule `suggestTShirtSize`: chest's size, one up if shirt shoulder is narrower than the person's	Chosen by the agent (open item §7-B)

Caveat: brand chart, not a Bangladeshi tailor standard; the app still shows the design values (40/18/28) until Step 10.

1.2 Women's size chart (XS–XXXL: bust / waist / hip) — used by Salwar kameez size

Acquired data	Source
Body bust, waist, hip per size	Lord & Taylor women's size guide (US)
Kameez bust 36–44 for S–XXL (cross-check only)	Ecstasy BD

Caveat: Western chart. No Bangladeshi kameez chart with waist/hip was found. Farhana 36" → M.

2. Partially acquired

2.1 Shirt (men)

Acquired	Source	Missing / unsure
Measurement list (neck, chest, waist/belly, hip, shoulder, sleeve, biceps, cuff*, length*)	Project Overview §4	Fit allowances not defined
Where/how each is measured	Proper Cloth, Luxire	Bangla term মাসল (Biceps) — not in any source
Ranges for new keys (biceps etc.)	ANSUR II 5th–95th pct (US Army)	Neck, chest, shoulder… ranges still rough

Size = men's chart size	Men's chart (see 2.6)	Cuff choice cards, length cards absent; diagram drawn by agent

2.2 Pants (men)

Acquired	Source	Missing / unsure
List (waist, hip, thigh, knee, crotch, inseam, full length, bottom opening*)	Project Overview §4	Fit allowances
How measured	Luxire pant guide	Bangla: ভেতরের লম্বা (Inseam), মোট লম্বা (Full length)
Bangla: রান, হাঁটু, হাই, মুহুরি/মোহরি	textilegoln, sattacademy	হাই = full crotch (agent's reading of source)
Ranges: crotch 18–32" (ANSUR 21.6–27.6"), knee 12–22"	ANSUR II	Rest rough
Size = waist number (W26–W44, even)	ASOS convention	Agent-chosen rule; diagram drawn by agent

2.3 Pajama (men)

Acquired	Source	Missing / unsure
List (waist, hip, thigh, full length, bottom opening*)	Project Overview §4	Fit allowances
How measured, Bangla terms, ranges	Same as Pants	Bangla: মোট লম্বা (Full length)
Size = men's chart letter size from waist	Men's chart (2.6)	Agent-chosen rule; diagram drawn by agent

2.4 Panjabi (men)

Acquired	Source	Missing / unsure
List (length*, chest, waist, hip, shoulder, sleeve, cuff*, neck) and Bangla terms	Project design export + Overview §4 (not from the web)	Not checked with a tailor (Overview §7)
Plausible ranges	Rough starting values in `Measurements.kt`	No source
Length / neck-depth presets	Samples for 5'7"	Cuff presets; real values computed from height (Step 10)
Size = men's chart	Men's chart (2.6)	Tape how-to only for chest, belly, sleeve

2.5 Salwar kameez (women)

Acquired	Source	Missing / unsure
List: kameez 10 + salwar 4, Bangla terms	Project design export + Overview §4	Not checked with a tailor

Size from bust (36" → M)	Women's chart (1.2)	No local kameez chart for waist/hip
Ranges	Rough	Cuff, neck-depth and length presets; tape how-to for bust, armhole, neck, shoulder, hip, salwar keys

2.6 Men's size chart (XS–XXXL: chest / waist / hip)

Acquired	Source
Chest (XS 34–36 … XXXL 46–48)	ASOS men's shirt chart
Waist (XS 28–30 … XXXL 40–42)	ASOS men's chart
Hip (low hip XS 34 … XXL 44, ±1")	James Perse men's body chart
XXXL hip 45–47	Extended by the agent (2" step), no source

Why partial: Western brand charts, not Bangladeshi; needs a tailor or local chart.

3. Not acquired (no source at all)

Item	Status
Fit allowances per garment	Undefined (Overview §7)
Cuff choice cards (options, values, pictures)	None; cuff is a number entry
Tape how-to text, diagrams, "ভুল এড়াতে" tips for neck, shoulder, hip, bust, armhole, salwar keys, biceps, thigh, knee, হাই, inseam, full length	Only chest, belly, sleeve, neck depth exist
Bangla terms: মাসল, ভেতরের লম্বা, মোট লম্বা	Not found in any source
Bangladeshi size charts (men, women, T-shirt)	Only Western / South Asian brand charts
AI calibration data (10–20 people, ±2 cm), Bangla/English voice clips	Not collected / recorded

Legend: green = sourced, yellow = rough / agent-chosen, red = missing. All Bangla terms and garment rules still await a tailor's confirmation (plan.md §7).
